Jupyter Notebook images Document viewer In this series of tutorials, we will show you how to use Jupyter Notebooks to create, import, and share data-driven, interactive visualizations within Jupyter. [caption id="attachment\_1153" align="alignleft" width="300"] [/caption] The Jupyter Notebook is an open-source system for interactive computing and visualization. It uses a simple markup language to achieve the goal. You can embed Live Code, import arbitrary R and Python objects, and share computations with others. The Notebook is typically run locally, though Notebooks can be integrated into a Jupyter server and shared over the Web with others. Overview The Jupyter Notebook is an open-source system for interactive computing and visualization. It uses a simple markup language to achieve the goal. You can embed Live Code, import arbitrary R and Python objects, and share computations with others. The Notebook is typically run locally, though Notebooks can be integrated into a Jupyter server and shared over the Web with others. [caption id="attachment\_1157" align="aligncenter" width="304"] [/caption] Jupyter Notebook is a cross-platform system for programming and data visualization. It provides a set of tools for viewing documents and programs, creating new documents and programs, and quickly exploring large data sets, spreadsheets, and annotated images. It also provides the ability to develop new programs by writing code directly in the Markdown page. Interactive computing and data visualization capabilities allow users to easily explore mathematical concepts, scientific data, and programming concepts. The main page can be displayed as an ordinary web browser. The web browser can be embedded in a web page. The web page can display the content of one file. If the file contains Markdown, HTML, CSS, and JavaScript, the web page can be displayed. Overview The main page can be displayed as an ordinary web browser. The web browser can be embedded in a web page. The web page can display the content of one file. If the file contains Markdown, HTML, CSS, and JavaScript, the web page can be displayed.
