Elden Ring [March-2022]

EDICT The world of Tarnished Lands is my favorite game. I appreciate its great graphics, characters, and music. The "epic story" is so interesting that I can't help but keep playing it. Most other games I play are short ones, but Tarnished Lands boasts hundreds of hours of gameplay. Therefore, if you're searching for a spectacular RPG, then, please, I highly recommend this title. I recently purchased it for a new Mac because I was satisfied with the graphics and the game's storyline, which is absolutely breathtaking. SCANNER I personally believe that Tarnished Lands is the most enjoyable RPG out of the games that I've played so far. The graphics are exceptionally awesome! Overall, I believe that Tarnished Lands is a better version of the RPG genre in comparison to its predecessors. However, if you're craving for a classical, game-like experience, then, you'd better look elsewhere. The story is really good, however, don't expect any major surprises or twists. The gameplay is very stiff, and it takes about 3 hours to get the hang of the game. That being said, however, I do recommend this title. If you're interested in exploring the new fantasy world, then this is the game for you. It is a bit short and hard to reach the height of the standards that is required for a RPG game but it still is a good game and I recommend it. TRAVELERS I'm really disappointed with the graphics of Tarnished Lands. I think that the idea of creating a new and powerful world was fantastic, but it's horribly executed. "But they say", you may say, "there are countless new fantasy games that are not as good as Tarnished Lands, but is it really so bad." Well, yes. It's extremely bland. The story is a strong part of the game, but the developers didn't pay attention to this area. They wrote stories instead of making the best fantasy game ever. Another reason why I think Tarnished Lands is a very weak game is because the difficulty of the game is too high. In particular, the Dark Elf quests are a real test of endurance. I think that it's the main reason why the game is not as exciting as I thought it would be. Tarnished Lands is in my opinion the worst RPG game out of all of the ones that I have played.
