In Elden Ring, you command an army of powerful warriors to take on the monsters that plague your lands in the Lands Between. Players can create unique characters using their own unique three-dimensional body data, and they'll be able to interact with and explore a vast world to their hearts' content. Players can equip weapons, armor, and magic that have been developed by the various character classes, and they can also create their own classes from the arsenal of 100 available. With the in-depth online gameplay of the 'Dawn of Elden', players can directly connect and play with other players around the world. They can enjoy a variety of experiences, such as having a joint party with online friends, taking part in asynchronous events that are posted by the majority, and picking through the events of those who performed well. LEADERSHIP AND ACQUIRING POWER As you complete quests, you'll gradually start working on the kingdom you've been entrusted with. Tasks will be fulfilled according to your merit, and as you advance, you'll find the way to meet and work with the powerful, and the gate will open for your destiny. 1. Elden Lordship As your kingdom advances, you will start to gain influence with the powerful "Elden Lords", and become the new empire's governor. 2. Sword Specialization You must actively train your swordplay, and become a dark and formidable warrior. 3. Archery Specialization You must be a master archer, and gain trust of the people. 4. Magic Specialization A true wizard, you must become a powerful spell caster. 5. Training and Development You can develop your strength, intelligence, and crafting, in addition to establishing your own kingdom. CONQUER CYBERDRONE The Elden Ring is a kingdom designed to lead the future, and command the power of the world. Through the development of this empire, we have created a world that has incredible diversity and richness. We have sought to establish a new type of game in the world of action RPGs. In doing so, we have changed the action RPG genre, creating a new action RPG that will pull at the heartstrings of all action RPG fans. We are delighted that you are interested in the world of the new fantasy action RPG, Elden

**System Requirements**

- Windows XP, Vista, or 7 for the OS
- CPU: 2.5 GHz Pentium® (Core™ 2 Duo) or higher
- RAM: 2 GB for single-player or 4 GB for multiplayer
- Network: Broadband Internet connection

**Q: Why didn't you launch in Japan? A:**

At team Mobage (currently known as MA, and founded at Moba Inc. in 2006), we've been guided by the overseas markets. Due to the small development team, we've only been in a position to spend development time on areas where we think players will genuinely enjoy them. Therefore, the game is localized in non-Japanese regions.

As of November 7, 2017, we've obtained the home-use distribution license to play in Japan.

#### What's new in Elden Ring:

The game also features the following outstanding new features when playing online:

- **Remote Play** Remote Play allows you to easily play against other players using an Apple iOS device, without having to leave the app. When playing as an Overlord, you can have the party member who is on the other side of the screen take part in the battle while giving a party member on the side of you a hand.
- **Party Connection** Party Connection enables you to connect not only with the other players, but also your own party members. If you take all of the party members who are on the screen as allies for the battle, it is difficult to see what you and your party members are doing and they might not be able to perform their actions well. However, when connected, you and the members of your party can perform amazing actions using the Skills that you raise.
- **High-resolution Asynchronous Graphics** The graphics are raised to unprecedented clarity, and even when graphics settings are lowered, the game retains its gorgeous clarity and finely detailed textures that is made possible by the Unreal 4 engine.
- **Bring Your Personal Touch to the Battle** Gain experience points by levelling up and use the collected experience points to perform new actions.
- **Real-time battle data** that changes between battles While playing, the game will track the power of the opponent's attacks by calculating the combined effects of the skill names the opponent has with highest rank, and will display two icons for the left and right hands on a single hand of the opponent. In addition, you can easily see where the opponent is performing their actions.
- **New Battle Mechanics Understood** through the knowledge of its abilities, the easiest skill to hit and the most difficult skill to hit are displayed on the skull icon of the opponent. In this title, action scenes have the Displacement Animation that will move in a certain direction. Alternatively, the action scenes will be switched to the It's a Slave Attack.

\*Pre-order campaign for the game will begin on February 25th, 2018. Pre-Orders will end on March 6th, 2018. For more information, please see the official website at: >

The solution of the following question is provided, but I have not been able to understand how or why it's the solution. Can someone explain how this works please? A: First note that by properties of absolute value,  $\|\mathbf{x}\| \geq 0$ , and so  $\|\mathbf{x}\|, \|\mathbf{y}\|$  are both real numbers. Moreover, any absolute value is itself a norm on  $\mathbb{R}^n$  because for all  $\mathbf{v} \in \mathbb{R}^n$ :  $\|\mathbf{v}\| = \sqrt{\|\mathbf{v}\|^2} = \sqrt{\mathbf{v}^\top \mathbf{v}}$  where  $\mathbf{v}^\top \mathbf{v}$  is a square matrix. Further, by definition of matrix norms, the distance of a vector  $\mathbf{v}$  from the origin is the minimum distance from  $\mathbf{v}$  to the zero vector  $\mathbf{0}$ . In other words, if  $\|\mathbf{x}\| = \|\mathbf{y}\|$ , then  $\|\mathbf{x}\| = \|\mathbf{y}\|$ , and if  $\|\mathbf{x}\| =$
