What's New in the Huaying?

Huaying is designed to be used by English-speakers who have basic command of Chinese. This app can be used as a vocabulary list for the Chinese language. The version 1.0 consists of 10,000 words, which cover about 2/3 of the Chinese words. Huaying will be developed further with more words. Huaying is FREE, no ads!

Features :

- Gui is designed in such a way that user can understand even by not learning Chinese.
- User can search the words in various modes, such as using Chinese characters, English words, or both.
- User can search quickly by using the word list in which the searched keywords and words are attached, for example, "RADI" and "Antenna" show result when user presses the button "RADI" in Chinese characters or press the button "ANTENNA" on English words.
- Words are fetched from the Baike website:

o Main Screen: The main screen is designed to be a list of 10,000 words and can be searched in various modes, as stated above. The words are arranged into groups that are frozen at the start. When you move the cursor to the top of the screen, the words move down, and when you move the cursor to the bottom of the screen, the words move up. When you click a word, the word will be highlighted in blue on the screen, the cursor will be moved to the word, and the word will be linked to the word list. If you search for the word "WATER", the main screen will be like this:

Use English words : You can click the button "use english" to use English words for searching The searched words will be attached to English words, such as "RADI" and "Antenna".

Use Chinese characters: You can click the button "use chinese" to use Chinese characters for searching The searched words will be attached to Chinese characters, such as "水瓶" and "饮水机"

Use both: You can click the button "use both" to use both Chinese and English words for searching The searched words will be attached to Chinese characters and English words, such as "水瓶" and "饮水机"
