own ePub files A watermark is a digital signature, designed to individualize a particular file, either image, video, audio, project, eBook, by indicating its provenance, ownership, author or other metadata. An effective watermark can help to quickly identify the author/owner of a particular file, against other claims. Simple ePub Watermark can help you individualize ePub files, by assigning a watermark to them.

---

The signature this program can create consists of a string of random characters, with digits and upper-capped letters. The software is easy to use and capable of performing the task in a few simple steps: load the ePub file, generate the code, then save the result to a local folder.
