Star Wars Quiz [Updated-2022]

- Star Wars Quiz is a simple software that enables you to see just how much you know about the 'Star Wars' films. - The various multiple-choice questions take just a few seconds to complete. - You can...Q: Set size of a tablewidget button I have a TableWidget in my GUI, which I would like to show the data in my csv-file. I have implemented a Button in my table widget, in order to be able to open the csv-file. My problem is, that the Button in my table widget is not resizing properly. I want it to be as small as possible, in order to get rid of some space between the buttons which opens the csv-file. The code looks like this: `import os import csv os.system("rm -R test.csv") filename = "test.csv" conn = pd.read_csv(filename,encoding='latin1',engine='python') for column in conn.columns: print(column) conn.to_csv(filename, index=False) #Create tbl button table = TableWidget() table.set_col_pix(0, 1, QtGui.QTableWidget.Button) table.set_col_pix(1, 1, QtGui.QTableWidget.Button) table.set_col_pix(0, 2, QtGui.QTableWidget.Button) table.set_col_pix(1, 2, QtGui.QTableWidget.Button) #Create buttons for the csv open #Create button btn = QtGui.QPushButton('Open CSV', self) btn.setObjectName("btn") btn.setAutoFillBackground(False) #Assign function btn.clicked.connect(lambda : openfile()) #Add layout for the button self.set_layout(btn) #Create layout table.set_layout(self) self.show() A: QtableWidget has setSize method that accepts QSize, not width and height. It may solve your problem. table.setSize(self.size())`

Star Wars Quiz Crack Free Download [2022]
