A: Looking at your error message I am guessing that the file you want to read is a text file, not a pdf file. You are trying to use pandoc to create a pdf document from a text file. Is that correct? I dont know if pandoc supports creating pdf documents from a.txt document. However, if all you want is to create a text file from a pdf file then you can use convert and it will give you the text from the pdf. So what you could do in your shell script is `convert xyz.pdf yz.txt` This should create a yz.txt file which contains the

text from the xyz.pdf file. Earl Sweatshirt Earl Sweatshirt made his explosive debut in 2007 on Odd Future as he toiled away in the shadows of his brother and leader Tyler, the Creator. He quickly gained a reputation as a deft lyricist and a fearless live performer. But it wasn't until March 2010 that Earl Sweatshirt announced he had left the group after a dispute over leadership. He took his music and his focus in a new direction. His first solo effort, *I Don't Like Shit, I Don't Go Outside*, released on October 9, 2010, from his eponymous debut, was a masterpiece of absurdist rap by a Brooklyn brat with the gravitas to command a stage in the most militant city in the world. The album featured guest appearances from Tyler, the Creator, Domo Genesis, Danny Brown and Vince Staples, among others. Earl Sweatshirt's career has never been the same since. He has quietly released a number of tunes since his solo debut, including the mixtape *E.supersuede* in November 2010. Earlier this year, he released the Depression-era hymnal *Colored Wood*, which samples the "Colored Wood" chorus from the 1930s spiritual "He'll Take You Up." That record predates most hip-hop by a decade. Then, in 2015, Earl Sweatshirt dropped his second record, *I Don't Like Shit, I Don't Go*

Outside, Pt. 2, which, if you've never heard it, is a mind-expanding and politically engaging deep cut. The record was the culmination of Earl Sweatshirt's 2015 project, The Whole Thelp, and he has been slowly but surely
