This includes, for example, the ability for players to use ground passes and transitions to receive a ball and then curve it back to their teammates before allowing their teammate to play a ball to an open teammate. It also includes the all new low-tackling mechanic that allows the players to go low in the tackle and use their opponents momentum to propel them away. This mechanic is then also added to the passing mechanics, such that defenders will have to block the pass rather than intercept it. "This project was led by the club's technical department headed up by Tommy Lambert and the principal investigators were our own technical football department," shared Boaventura. "The whole project saw some extraordinary collaborations and brought together some of the best minds from all around the world. This included, for example, our 3D-people, who are developed next to the Technical department, allowing the energy and data from each player to be translated into the player animations and player stats." "HMT had to fuse these pieces of the player animation together to create the authentic football feeling. All aspects of the design has to be truly authentic for our fans and this meant getting deeply into the data of these players." FIFA (Fédération Internationale de Football Association) is the world's premier association football (soccer) governing body, with around 450 national members and over 200 million members around the globe. FIFA consists of the executive committee (EC), which is the decision-making body of FIFA, and the FIFA Players' Council (FPC) which is the association's democratically elected representative body for players, the media and the general public. The two bodies work together as one to manage the world's most popular sport. EA SPORTS is a division of EA Canada located in Toronto, Ontario, Canada, and operated by EA SPORTS IGNITION. EA SPORTS manages and publishes FIFA and EA SPORTS FIFA, FIFA The Journey, EA SPORTS FIFA Street, EA SPORTS Active 2, and the now defunct EA SPORTS Football, while IGNITION is in charge of the business-facing, community-facing areas of the EA SPORTS portfolio, which includes development and publishing. FIFA 22 is the official videogame of the 2018 FIFA World Cup™ and can be downloaded worldwide starting September 29. What's in FIFA 22? FIFA 22 captures the essence of the unique World Cup experience with innovative gameplay features like Control Sides and much more. FIFA 22 also features a complete reimagining of the FIFA World Cup™ experience, including its core gameplay and all-new content.* CONTROL SIDES No pass is ever given up in the Brazilian Cup Final. No quick kick is an uncontrolled volley. The player with the ball is free to do as they please. And the best plays are the ones that nobody will ever see. FIFA 22 introduces "Control Sides" to World Cup soccer as a new, unpredictable dimension to gameplay. It allows players to take control of the ball from a third-person view and play without passing, dribbling or shooting. Players can manipulate the ball in mid-air to perform tricks and evasive moves. Players can even kick the ball into their opponents' legs to score, pass or head the ball in the air. Control Sides is always in play with every goal scored or in every match, adding to the unpredictability of what will happen next. MULTIPLAYER – NO PASS IS EVER GIVEN UP Multiplayer features more than 40 new online modes, including a selection of long-form matches and special events. The new 4v4 Rainbow Dash mode puts your team against
