Originally announced over a year ago, Disney/Lucasfilm wound up with a new Star Wars role playing game in two different game engines. Instead of Gametang 'eStarlin' by Fantasy Flight Games, they chose Games of the SE Universe by Bioware and created their own engine, Star Wars: The Old Republic by Roberts. Now with a minimum of 48 hours of closed beta testing, we have a new trailer showing off all the characters, worlds, and planets that we can explore for this massive 'Sandbox' style RPG. If you are a complete newbie at Star Wars and MMO games you could end up in a completely different timeline than other players.

Old Republic has a wide variety of classes to choose from and is capable of story, role-playing, and PvP. Here's a quick overview video of the system for comparison to what we have on offer with SWTOR:

"We all used to rush to her dressing room the moment we knew she was being interviewed for a film. Nobody else had such a following," wrote Tony Curtis, her co-star on *The Big Sleep*, in his memoir *To Have And Have Not*. "The audience made us feel that we were her date, her favourite basketball team, her personal friends." Before her first film role, she was not a stranger to the set, her dad Jack having been a cameraman. While her father's involvement in his daughter's rise to fame is well-documented, her mother Judy Bacall had little involvement in her career. The young actress became Bacall "with great suddenness and a shock that I wasn't prepared for". According to her biography, by Peter Bart, she was one of eight children: four sisters and four brothers. Her father was in the building trade and her mother worked in a brothel - which may go some way to explaining why Bacall was always a tomboy. She excelled at school and won a scholarship to Juilliard, but her acting was always the focal point in her life. Bacall in 1962 While studying acting, she was spotted by a talent agent who subsequently signed her to a contract and by director Howard Hawks, who cast her as the tomboyish Trudie in 1949's *To Have And Have Not*. Bacall's first film performance received mixed
