With this, it will let you add mods and other unofficial content into the game without needing to do the hard work on your own. It's . This unlocks all the content in the game and gives the option to add the game to your library of games. It is possible to remove games from this add-ons and move them to your shelf. With the add-on you will receive some trophies and achievements from the mods and you can also add mods directly into the game. The add-on looks like on other add-ons and you can go to the Guild Wars 2 trainer to add more things to the game. It is possible to reset the trainer and start over but you must delete that addon. By deleting the addon, the content is removed and it is possible to add it again. First, you will need to download the trainer. You will use the trainer to activate the trainer when you download the game. After you have downloaded the game to your computer, the trainer comes with a zip file. You will extract the trainer into the app directory for Guild Wars 2. Create a new directoy and name it mods. The trainer should be in the add-ons. Once the trainer has been added to the app directory, you will have to hit next on the trainer. You will then be prompted to press start to activate the trainer. If you run the trainer you will then have to get your guild name and hit start to use the trainer to add mods to the game. A: A question has been asked in the Borderlands.2 section of the Steam forums. Here is the response: It's really only good for assisting with content with mods that dont yet have registered mods, they
