Productivity data based on a series of studies commissioned by Autodesk to an outside consultant. The seven toolset studies compared basic Autodesk AutoCAD to the specialized toolsets within Autodesk AutoCAD when performing tasks commonly done by experienced Autodesk users. Overall productivity gain calculation based on adding the completion times of specific tasks in the toolset and also in basic AutoCAD and then calculating the percent difference between the two totals across seven studies. As with all performance tests, results may vary based on machine, operating system, filters, and even source material.
