

The default scenic package that comes with P3D is "ORBX - Global Trees - HD". The scenery package has its own installer in P3D. However, if you go to the website, they have a list of scenery packages that they have that you can install. I found a list off their website that I got from a thread in the P3D/OrBX forums. I believe it was posted about 2 years ago. The list is here: [ORBX Scenery Site](#) It has true indoor trees, natural trees, city trees, jungle trees, and you can change the colors of each tree type using the control panel. Best of all, this tree scenery is not at all complicated to install. You just unzip it and drag it into your FSX/P3D/ORBX/Prepar3d/Moorings tree folders. Then it takes full root right away, and you're free to enjoy your new high-resolution trees. If you need help downloading the scenery, be sure to check out the full-featured tutorial attached to the download package. That tutorial will walk you through the process of downloading and installing the scenery.
