# Total Commander Full [PATCHED] Version

Support for the Windows 10 Action Center has been added to Total Commander, so you can see all upcoming updates, and view the Details of an installed update, without having to wait until that update is finished. And if you're connected to a Wi-Fi hotspot that allows you to access the Internet while on your smartphone or tablet, you can use it to see the access time and data speed of the hotspot. All of these updates are part of the app's December update, so if you're running a version below that, you can get it now by selecting Help > Check for Updates. Support for ZIP, RAR, 7z, and TAR archives has been added, in addition to the already-supported ZIP, JAR, GZ, BZ2, and LZH archives. Since its automatic compression, Total Commander can also identify and handle files which can't be saved because they're damaged or corrupt, and lists these files (and the reason why they can't be saved) in the history. You can run both Local List/Map and File Explorer inside Total Commander, as well as open and run Total Commander's own file managers from inside the file managers. You can run the CMD / PowerShell / Batch files that Total Commander contains in an archive while you have it open, and you can even open the archive from the History view. There's no more need to use Windows Explorer for these things. And of course, you can perform your backups this way as well, so it still serves as a backup tool, just for Windows. like we said before, total commander is intended to be used mainly with your keyboard. this is why it offers handy shortcuts for common tasks like viewing, editing, copying, moving or deleting files. but if you find it hard to abandon your mouse, don't worry: you can use the icons on total commander's toolbar as shortcuts for notepad, wordpad and the control panel, and also add your own shortcuts to your favorite applications via the configuration > button bar menu. in fact, total commander has such an exhaustive configuration menu that you'll be able to tweak every single detail of the program.
