Vertex Vx-180 Programming Software Download

The kit includes a USB cable (with driver CD) for programming Vertex VX-160 series radios. Also included is a copy of the latest version of Programming ... (version 6.0), which is necessary for programming and debugging radios, as well as for software updates. If Vertex VX-160 Pro is already installed on your computer, you can only use Vertex VX-160 software without installing Vertex VX-160 software. Once the drivers are installed, the Programmable Parameters window will have information that matches the settings specified in the drivers. dd2bc28256
